

Warning label Glass

Product Images

Short Description

Fluorescent self-adhesive label with black printed symbol. Format 100x50mm, 1000 labels per roll.

Description

Sensitive shipments? Use a warning label! Warning labels are usually fluorescent self-adhesive labels for use on shipments such as packages and pallets. The label often contains a familiar warning symbol and or text that clearly indicates to the forwarder or warehouse personnel important information for how they should process the shipment. All our warning labels are produced in Europe, consistently high quality with silicone-treated release paper for easy and safe removal. Through our local suppliers, we also have the opportunity to customize the labels with unique messages. The product is made from paper that comes from sustainable forestry.
